

Hello Current Students!

I am an undergraduate student currently enrolled on an International Business course. I take great pride in my integrity for education and why it really matters to get the most out of your university experience. As well as light industrial experience, this is my third year in the university, and i look forward to many more!

Let me explain a little about myself:

22 Year old Undergraduate

Studies International Business Management

Has attained a Junior Olympic Bronze in MA Wrestling

Acheived a 'best player' award for a rugby club in Audenshaw

Cares about the university's quality and teaching standards

has first hand experience of involvement with fitness to study procedures

Has achieved an average of 80.2% in the last three assignments taken

How i justify your voting of me is rather simple - I'm in and around the university for a lot of my time. I enjoy the university environment and the experience that comes with it, and i enjoy the assignments that take place and always question the intellectual stimulation to which i recieve in my current studies, and i encourage you to as well.

Should you need to contact myself, do not hesitate. Details will be posted seperately from my manifesto.

Thank-you

Michael I Heywood
