

# VISION STATEMENT

<b>Candidate's Name</b>	Youssef Mohamed
<b>Candidate Team Name</b>	
<p>My idea is to support all students by ensuring they have access to appropriate guidance, advice, and wellbeing support throughout their university journey. This includes academic support, student life, and accommodation, as well as practical advice on university fees and how to find part-time employment. Many students face challenges beyond their studies, and providing clear, accessible support can help reduce stress and improve their overall wellbeing.</p> <p>An important part of this position is safeguarding and supporting students who may be experiencing mental health difficulties. By listening to students, responding with empathy, and signposting them to relevant wellbeing or counselling services, I would help ensure that no student feels alone or unsupported. Early support is essential in preventing issues from escalating and in promoting a healthy balance between academic and personal life.</p> <p>In addition, I would support prospective students who are applying to Manchester Metropolitan University by helping them explore different courses and identify their interests. This could include encouraging students to read course information, discuss their options with the Student Hub, and consider future opportunities such as placement years or internships. Providing clear guidance at this stage can help students feel more confident and prepared when making important decisions about their education.</p> <p>In my role, I would aim to support both new and current students by being approachable, proactive, and reliable. I would do my best to reach as many students as possible and ensure they feel comfortable asking for help, whether their concerns relate to academic pressure, finances, accommodation, or mental wellbeing. Ultimately, my goal is to contribute to a supportive and inclusive university environment where every student feels listened to, valued, and able to succeed.</p>
